

The map displays a network of transport routes in the Wrocław city center, with a focus on the area around the main railway station. The routes are color-coded to represent different types of transport:

- Transport indywidualny [poj./godz.]** (Individual transport, vehicles per hour): Represented by green lines.
- Transport zbiorowy [pas./godz.]** (Collective transport, passengers per hour): Represented by purple lines.

Key features of the map include:

- Major Routes:** A primary route runs diagonally from the top-left towards the bottom-right, passing through the city center. Another significant route branches off to the right, heading towards the bottom-right corner.
- Volume Data:** Numerous numerical values are placed along the routes, indicating the volume of transport at specific points. For example, green numbers like 5260, 4320, 5430, 4460, 5740, 4370, 3070, 440, 470, 550, 90, 30, 40, 08, 05, 1450, 1450, 1590, 1490, 1720, 2080, 1200, 1700, 1980, and 1200 are visible.
